

For radiators with side-supply pipes, front valves, or both.

Fill out the standard five measurements, then record where the pipes and valves are. Notch positions matter.

STANDARD MEASUREMENTS · INCHES

01 · LENGTH

*incl. side pipes*

02 · DEPTH

*to deepest point*

03 · HEIGHT

*floor to top*

SIDE PIPES · INCHES

LEFT PIPE PROJECTION

*how far the pipe sticks out (or 0 if none)*

RIGHT PIPE PROJECTION

*how far the pipe sticks out (or 0 if none)*

LEFT PIPE HEIGHT

*floor to center of pipe*

RIGHT PIPE HEIGHT

*floor to center of pipe*

FRONT VALVE · INCHES

VALVE HEIGHT

*floor to center of valve*

VALVE POSITION FROM LEFT

*left edge of radiator to valve*
